2009 International Wine & Spirit Competition

The International Wine and Spirit Competition was founded in 1969 and is the premier competition of its kind in the world. Its aim is to promote the quality and excellence of the world's best wines, spirits and liqueurs. This standard is achieved through a rigorous two-stage judging process of professional blind tasting and detailed technical (chemical and microbiological) analysis that takes place at The Competition's headquarters in Surrey, UK. To ensure perfect conditions, the premises include temperature-controlled cellars, a fully equipped independent laboratory for technical analysis, and three dedicated tasting rooms.

The Competition has the support of many of the world's top wine and spirits producers, because we strive to set the international benchmark for quality. The unique combination of detailed technical analysis and specialist judging panels means that gaining any Competition award is an outstanding achievement. Our focus is to communicate the value of our medals to retailers, restaurateurs and consumers in every major market.
