Hot Drops nominates the best 40 white and red wines produced in WA

“Here is my pick of the best 40 wines produced in Western Australia. Many have an international profile and the best of these are world-class wines. The criteria by which I judged these wines was, first, their quality then their track record over five or more vintages. A few exceptional wines have made the list ahead of their time because I’m convinced they will still be among the state’s best in years to come. Prices are for the latest vintage.” Peter Forrester

● = Among the best in Western Australia

Clairault Estate Cabernet Sauvignon ●

“Under the direction of Wills Shields, Clairault Wines—across the board— have shown significant improvement. The history of this wine dates back to the early 1980s. It is densely flavoured, structured and powerful with classic Margaret River elegance and fine drying tannins on a finish of considerable length.”

● **CLAIRAULT ESTATE CABERNET SAUVIGNON, \$44**
